RAYMOND H. FOGLER LIBRARY

- The “mall” in front of the Fogler Library is the central hub of campus where students can study and hangout. The mall is also home to the student organizations fair at the start of each semester.
- The library has three floors, all of which correspond with a noise level. On the first floor you can chat with your friends, work on group projects and talk at a normal conversational level. As you go up in floor level, the volume level decreases. The third floor is completely silent which is great if you work best in a silent environment.
- Also on the 1st floor is the Oakes Room where students can grab a coffee, or stop for a bite to eat.
- Fogler is the largest library north of Boston.
  - The library has wireless printing and the collaborative media lab (providing assistance in poster printing, camera and video gear rentals).
  - All textbooks are available to use in the library!

- Each residence hall has WiFi, indoor bike storage, and a lounge.
- Students have the option to choose their roommate or have one randomly assigned.
- There are RA's in each hall - RA's are there to build community within the residence halls, ensure that all residents are safe, happy, comfortable, and plan hall programs and activities.
